MERIT BADGE SERIES

FISH AND WILDLIFE MANAGEMENT
FISH AND WILDLIFE MANAGEMENT

“Enhancing our youths’ competitive edge through merit badges”
Requirements

1. Describe the meaning and purposes of fish and wildlife conservation and management.

2. List and discuss at least three major problems that continue to threaten your state’s fish and wildlife resources.

3. Describe some practical ways in which everyone can help with the fish and wildlife conservation effort.

4. List and describe five major fish and wildlife management practices used by managers in your state.

5. Do ONE of the following:
   a. Construct, erect, and check regularly at least two artificial nest boxes (wood duck, bluebird, squirrel, etc.) and keep written records for one nesting season.
   b. Construct, erect, and check regularly bird feeders and keep written records of the kinds of birds visiting the feeders.
   c. Develop and implement a fishery improvement project or a backyard wildlife habitat improvement project. Share the results with your counselor.
   d. Design and construct a wildlife blind near a game trail, water hole, salt lick, bird feeder, or birdbath and take good photographs or make sketches from the blind of any combination of 10 wild birds, mammals, reptiles, or amphibians.

6. Do ONE of the following:
   a. Observe and record 25 species of wildlife. Your list may include mammals, birds, reptiles, amphibians, and fish. Write down when and where each animal was seen.
b. List the fish and wildlife species in your state that are classified as endangered, threatened, exotic, non-native, game species, furbearers, or migratory game birds. Discuss with your counselor management practices in place or being developed for at least three of these species.

c. Start a scrapbook of North American fish and wildlife. Insert markers to divide the book into separate parts for mammals, birds, reptiles, amphibians, and fish. Collect articles on such subjects as life histories, habitat, behavior, and feeding habits on all of the five categories and place them in your notebook accordingly. Articles and pictures may be taken from newspapers or science, nature, and outdoor magazines, or from other sources including the Internet (with your parent’s permission). Enter at least five articles on mammals, five on birds, five on reptiles, five on amphibians, and five on fish. Put each animal on a separate sheet in alphabetical order. Include pictures whenever possible.

7. Do ONE of the following:

   a. Determine the age of five species of fish from scale samples or identify various age classes of one species in a lake and report the results.

   b. Conduct a creel census on a small lake to estimate catch per unit effort.

   c. Examine the stomach contents of three fish and record the findings. It is not necessary to catch any fish for this option. You may visit a cleaning station set up for fishermen or find another, similar alternative.

   d. Make a freshwater aquarium. Include at least four species of native plants and four species of animal life, such as whirligig beetles, freshwater shrimp, tadpoles, water snails, and golden shiners. After 60 days of observation, discuss with your counselor the life cycles, food chains, and management needs you have recognized. After completing requirement 7d to your counselor’s satisfaction, with your counselor’s assistance, check local laws to determine what you should do with the specimens you have collected.

8. Using resources found at the library and in periodicals, books, and the Internet (with your parent’s permission), learn about three different positions held by fisheries and/or wildlife professionals. Find out the education and training requirements for each position.
Scouting Literature

Visit the Boy Scouts of America’s official retail website at http://www.scoutstuff.org for a complete listing of all merit badge pamphlets and other helpful Scouting materials and supplies.

Acknowledgements

The Boy Scouts of America thanks Steve Lekwa, retired director of Story County Conservation, Iowa Department of Natural Resources, for his assistance with updating this edition of the Fish and Wildlife Management merit badge pamphlet.

We are grateful to members of the BSA’s national Conservation Task Force for their assistance with the previous edition of the pamphlet, much of which has been retained in this updated edition. In particular, we thank Gary M. Stolz, Ph.D., U.S. Fish and Wildlife Service, whose expertise and accommodating support have been a tremendous help. Thanks also to task force members Daniel A. Poole, president, Wildlife Management Institute; and Harvey K. Nelson, U.S. Fish and Wildlife Service, North American Waterfowl Plan; for their assistance.

The Boy Scouts of America is grateful to the men and women serving on the Merit Badge Maintenance Task Force for the improvements made in updating this pamphlet.
