“Enhancing our youths’ competitive edge through merit badges”
Requirements

1. Do the following:
   a. Explain to your counselor the most likely hazards you may encounter while participating in small-boat activities and what you should do to anticipate, help prevent, mitigate, and respond to these hazards.
   b. Review prevention, symptoms, and first-aid treatment for the following injuries or illnesses that can occur while sailing: blisters, cold-water shock and hypothermia, dehydration and heat-related illnesses, sunburn, sprains, and strains.
   c. Discuss the BSA Safety Afloat policy. Tell how it applies to small-boat activities.

2. Before doing requirements 3 through 9, successfully complete the BSA swimmer test: Jump feetfirst into water over the head in depth. Level off and swim 75 yards in a strong manner using one or more of the following strokes: sidestroke, breaststroke, trudgen, or crawl; then swim 25 yards using an easy, resting backstroke. The 100 yards must be completed in one swim without stops and must include at least one sharp turn. After completing the swim, rest by floating.

3. Describe the boat you will be using for the sailing requirement, naming all of the major parts and the function of those parts.*

*The skills may be demonstrated on any boat available to the Scout; sailboards are not acceptable. While no specific sail plan is recommended, it is suggested that the craft be smaller than 20 feet. The boat must be capsizable and have the capability of sailing to windward.
4. Before going afloat, do the following:
   a. Discuss the nine points of the BSA Safety Afloat plan.
   b. Explain the rules of the road in general and any specific rules or laws that apply to your area or state.
   c. Explain how water conditions, the hazards of weather, and heavy winds can affect both safety and performance in sailing.
   d. Discuss the warning signs of inclement weather and what to do should heavy winds develop or a storm approach.
   e. Prepare a typical float plan.
   f. Discuss the proper clothing, footwear, and personal gear required for small-boat sailing in warm weather and in cool weather. Explain how choosing the proper clothing, footwear, and personal gear will help keep you comfortable and safe while sailing.

5. Discuss with your counselor how to identify the wind direction and wind indicators. Explain the importance of this task before setting sail.

6. Following the BSA Safety Afloat plan, show that you and a buddy can sail a boat properly. Do the following:
   a. Prepare a boat for sailing, including a safety inspection.
   b. Get under way from a dock, mooring, or beach.
   c. Properly set sails for a round-trip course approved by your counselor that will include running, beating, and reaching—the basic points of sail. While sailing, demonstrate good helmsmanship skills.
   d. Change direction by tacking; change direction by jibing.
   e. Demonstrate getting out of irons.
   f. Demonstrate the safety position.
   g. Demonstrate capsize procedures and the rescue of a person overboard.†

†Capsize procedures should be conducted under the close supervision of the counselor. A rescue boat should be standing by to assist, if necessary, and to tow the capsized craft to shore. Self-bailing boats are acceptable for this requirement. Extreme care should be taken to avoid personal injury and damage to the boat or equipment.
h. Demonstrate the procedure to take after running aground.

i. Upon returning to the dock, mooring, or beach, properly secure all equipment, furl or stow sails, and prepare the craft for unattended docking or beaching overnight or longer.

7. Demonstrate a working knowledge of marlinespike seamanship. Do the following:

a. Show how to tie a square (reef) knot, clove hitch, two half hitches, bowline, cleat hitch, and figure-eight knot. Demonstrate the use of each.

b. Show how to heave a line, coil a line, and fake down a line.

c. Discuss the kinds of lines used on sailboats and the types of fibers used in their manufacture. Explain the advantages and disadvantages of each.

8. Describe how you would care for and maintain a sailboat and its gear throughout the year.

9. With your counselor, review sailing terminology and the points of sail. Discuss various types of sailboats in use today and explain their differences.
Small-Boat Sailing Resources

Scouting Literature

*Deck of First Aid; Emergency First Aid pocket guide; Be Prepared First Aid Book; Fieldbook; Sea Scout Manual; Canoeing, Kayaking, Motorboating, Rowing, Scuba Diving, and Whitewater merit badge pamphlets*

Visit the Boy Scouts of America’s official retail website at http://www.scoutstuff.org for a complete listing of all merit badge pamphlets and other helpful Scouting materials and supplies.

Acknowledgments

The Boy Scouts of America thanks the United States Sailing Association, better known as US SAILING, the national governing body for the sport of sailing in the United States, for its generous permission to pattern our how-to illustrations after those in its official learn-to-sail guide, Start Sailing Right! Thanks also to the following US SAILING employees and volunteers.

- Janine Connelly, US SAILING Training Director
- Pat Giella, US SAILING Instructor Trainer and National Faculty member
- Jo Mogle, US SAILING Training Committee Vice Chair for Standards and Credentials
- Richard Jepsen, US SAILING Training Committee Chair and CEO OCSC Sailing School
- Timmy Larr, US SAILING Training Committee volunteer

The BSA also appreciates the assistance of Scouter David Bell, BSA Health and Safety Committee member.

The Boy Scouts of America is grateful to the men and women serving on the Merit Badge Maintenance Task Force for the improvements made in updating this pamphlet.
