

CUB SCOUT DAY CAMP

2012 NATIONAL STANDARDS FOR LOCAL COUNCIL PRECAMP AND OPERATIONAL ACCREDITATION OF CUB SCOUT/WEBELOS SCOUT DAY CAMP

This booklet includes procedures, standards, and explanatory information for the 2012 camping season. The National Standards Accreditation Score Sheet for Cub Scout/Webelos Scout Day Camps is a separate four-part form for use in reporting to the council, region, and Outdoor Programs Team. Attach all accreditation team recommendations and items needing follow-up to this report for council use. The local council forwards copies to the region and the Outdoor Programs Team.

Day camp is an organized one- to five-day program for Tiger Cubs (and their adult partner), Cub Scouts, and Webelos Scouts under trained leadership at an approved site, during daylight or early evening hours but not overnight. **Day camp youth participants are limited to registered Tiger Cubs (and their adult partners), Cub Scouts, and Webelos Scouts.**

PURPOSE

The standards are established for the following reasons:

1. Ensure the health, safety, and well-being of every camper, leader, visitor, and staff member while on camp property.
2. Ensure that the council takes pride in the high quality of its day camp(s), including the program, staff, facilities, and equipment.

Regardless of the length or location of the day camp, the local council is responsible for ensuring that the facilities meet these standards.

As a result of this analysis and rating, the council should be able to do the following:

- Objectively review its day camp operation.
- Discuss the year-round outdoor program opportunities.
- Issue a written report for executive board action, complete with recommendations, that can be used to guide corrective measures.

RESPONSIBILITY

The Scout executive is responsible for maintaining national standards, with help from the camping committee, health and safety committee, and other appropriate council committees. The accreditation team and the camp director are responsible for ensuring that all standards are or will be in effect when camp

opens. In some cases, the camp director must administer the operating part of the standards. This same principle of assigned responsibility applies to the balance of the standards.

The precamp accreditation is designed to help identify facilities and equipment that need to be brought up to standard before camp opens. Accreditation team members must have current training (within two seasons) as visitation team specialists.

PROCEDURE

Part I—A precamp accreditation visit should be done as early as possible to allow time to take action on checked items, and no less than 30 to 60 days before the day camp begins. **Use the Precamp Accreditation column on Pages 4–11.** The accreditation team consists of the council camping chair, health and safety chair, day camp director, and Scout executive or designee, plus other committee members and staff as needed. Compliance with standards is to be indicated by the council representatives. The accreditation team will review the precamp checks indicating action needed to be taken at the time of the camp accreditation.

Part II—While the day camp is in operation, the accreditation team appraises the camp by doing the following:

1. Touring the camp facilities during hours of operation, using this form as a guide. During the tour (visitation), the team must take time to do a good job. Most importantly, the team must insist on immediate action to correct critical items affecting the health and safety of campers and staff.
2. Observing the use of equipment, methods of instruction, use of personnel, and any obvious indications of Scouting ideals in action. During the tour, talk with leaders and boys. Discuss the program with the program director and other staff members.

Part III—After completing the day camp visitation:

1. Prepare a final analysis and rating for the camp, including recommendations and comments. Complete the four-part score sheet and distribute copies as noted.
2. Schedule and confirm a time to provide a report to the council executive board. (The chairs of the council camping committee and health and safety committee should make the report.)
3. The Scout executive sends copies of the score sheet, as noted, to the Outdoor Programs Team.

Day Camp Accreditation Certificate, No. 430-110

Nationally Accredited Camp flag, No. 11013

SCORING

Use the camp accreditation score sheet to record the results of the accreditation visit. Forward it to the local council service center.

If any standard marked with an M (Mandatory) is not met, the camp or facility must be rated as conditionally accredited to operate.

Unless otherwise indicated, the word “adult” as used in the standards means the minimum legal age specified by the state in which the camp is located.

SUMMARY OF CHANGES FOR 2012

Standard M1 notes that a precamp accreditation visit must be completed 30 to 60 days before the start of camp.

Standard M38B revised the list of approved health officers.

Standard M41 was merged with standard M63.

Standard M42 was merged with standard M61.

Standards 48 and 49 became mandatory.

CLOSING A DAY CAMP OR PROGRAM FACILITY

When a violation presents an immediate hazard to safety and health, the visiting accreditation team has the authority and responsibility to order immediate shutdown of that portion of the camp that is in violation.

RATINGS AND RECOGNITIONS

(Count a nonapplicable item or an excused item as a “yes” when computing percentages.)

NATIONALLY ACCREDITED CAMP (Both must be marked “yes” to qualify.)

___ Meets all standards marked with M (Mandatory).

(The only exceptions are nonapplicable or legitimately excused items.)

___ Meets at least 90 percent (55 or more) of all standards.

If all mandatory (M) standards are not met or the total score is not 55 or more, the camp must be rated as conditionally accredited.

Nationally accredited day camps may display the Nationally Accredited Camp flag, No. 11013 (available to councils from the Supply Group). The Day Camp Accreditation Certificate, No. 430-110, is also available from Supply Group. Use the order form on Page 3 or call 1-800-323-0732.

ADMINISTRATION			
<input type="checkbox"/> M1. A precamp accreditation visit is completed 30 to 60 days before the start of camp. Date: _____	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	10. No. 10 is intentionally blank to maintain numerical sequence.	
<input type="checkbox"/> M2. If the day camp is not conducted on council-owned or -managed property, a current-year written agreement specifying the conditions of use has been secured from the landowner.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> M11. A current (within 12 months) health history (Parts A and B of form 680-001) for each camper, leader, and staff member is on file in camp during the camping period.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/> M3. All necessary and required permits, certificates, licenses, and agreements to lawfully operate a camp at this location are current and displayed or on file at the site.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> M12. A daily record of all first-aid and medical treatments (written in ink) is kept in the First Aid Log, No. 33681. Alternatively, smaller day camps may use the First Aid Log for a council/district activity or event available at www.scouting.org/filestore/pdf/680-172WB_duplex.pdf . Staff records are kept in a separate logbook. At the close of camp, first-aid logs are returned to the local council service center and retained for 18 years. The day camp director shall review and initial the logbook throughout the camping period to determine whether action is required to prevent recurrences.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/> M4. Current-year letters of agreement with local authorities to provide emergency care or services to the camp are kept on-site. These include fire, ambulance, and law enforcement authorities.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	All injuries, illnesses, and incidents requiring the intervention of a medical provider beyond basic Scout-rendered first aid shall be reported using MyBSA—Resources—Incident Reporting. Fatalities or other catastrophic incidents including multiple serious injuries or illness should be immediately reported following guidance in the crisis communication plan and reporting folder.	
<input type="checkbox"/> M5. Accident and sickness insurance is in effect for all campers and staff.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> M13. Appropriate emergency transportation is available at all times.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/> M6. A complete equipment inventory and an effective system of issuance and control exists for all departments.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> M14. The camp provides adequate shelter and/or protection for inclement weather.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/> M7. A strict and orderly method exists for handling trading post stock, cash, and inventory, including support records.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>		
<input type="checkbox"/> M8. A camp operating budget with an effective cost-control and budget-control system is in effect and shared with key staff.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>		
<input type="checkbox"/> M9. A current-season written agreement with a nearby hospital is on file, regarding procedures for admitting participants and procedures for handling financial arrangements for treatment, if necessary.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>		

2012 DAY CAMP STANDARDS

Precamp Accreditation (Check if action needs to be taken.)	Operational Accreditation YES NO NA	Precamp Accreditation (Check if action needs to be taken.)	Operational Accreditation YES NO NA
<input type="checkbox"/> M15. Campgrounds are clean, neat, and free of hazards. When possible, program, washing, and toilet facilities are available to Cub Scouts and leaders with disabilities.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> M20. All motor vehicles used by the camp, including private cars, vans, and buses used for transportation of passengers, are kept in safe mechanical order (registered and inspected) and are operated in a safe and legal manner. Under no circumstances are youth to be carried in the bed of or towed behind a pickup. The beds of trucks or trailers must never be used for carrying youth. Hayrides may be provided following the restrictions outlined in the <i>Guide to Safe Scouting</i> . A seat belt is available for each person in each motor vehicle (except commercial buses). All watercraft meet U.S. Coast Guard and local standards.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/> M16. Drinking water is from an approved municipal source or is tested regularly during the season for bacteriological quality, and meets state and local health department standards. (Check certification.)	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> M21. Vehicles belonging to staff, leaders, and visitors are parked in a designated camp parking area. Roads in the camp are restricted to service vehicles and only on a limited basis.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/> M17. Drinking water is provided at central locations via sanitary fountains or portable water coolers. Personal (individual use only) water bottles or disposable cups (no shared cups) may be used.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> M22. Current emergency telephone numbers for the fire department; police and rescue squad; hospital; camp physician; and Scout executive's home, mobile, and office are posted. Alternative personnel are designated for the camp physician and the Scout executive. A backup or alternative communication system is available at all times.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/> M18. Adequate male and female toilet facilities (one per 30 campers or the state requirement) and hand-washing facilities are provided for visitors and campers.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> M23. The camp administration has written procedures in place to address possible intrusion of unauthorized personnel into camp. A review of the site's security concerns is conducted during staff training. Campers are coached about steps to take in such instances. Appropriate identification is given to campers, staff, and visitors.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/> M19. Written plans (updated annually and specific to the site) for handling emergencies such as floods, tornadoes, storms, lightning, fires, accidents, lost children, sickness, and fatalities are on hand and have been shared and practiced with staff and leaders.	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>

___ M37A. If swimming and/or boating activities are conducted on council-owned or -operated properties or a private facility using BSA personnel, the aquatics program must be directly supervised by a camp aquatics director aged 21 or older who has a current National Camping School certificate of training in either Aquatics Instructor BSA or Aquatics Supervisor. The aquatics director is also currently trained in American Red Cross First Aid and CPR/AED for the Professional Rescuer or equivalents.

For swimming activities, there must be a sufficient number of aquatics staff members with current lifeguard training from the BSA, American Red Cross, YMCA, or other recognized agencies to satisfy state regulations for

guard-to-patron ratios. Sufficient additional staff members are available to satisfy BSA Safe Swim Defense guidelines for lookouts and response personnel. In accordance with Department of Labor regulations, 15-year-old paid staff members with lifeguard training certificates may only work as lifeguards for swimming activities in a swimming pool. Lifeguards for swimming activities in a natural body of water must be at least 16 and have an appropriate lifeguard training certificate.

For boating activities, the camp aquatics director is assisted by additional personnel to satisfy supervision and training guidelines consistent with BSA Safety Afloat guidelines for Cub Scouts.

Sufficient time is allowed during staff training for the aquatics director to review aquatics programs and safety with all appropriate staff, including special situations identified during medical screening and aquatic specific emergency action plans.

___ M37B. If a swimming program is conducted at a licensed swimming facility, supervision may be provided by facility employees whose training is regulated by state authorities, in lieu of the supervision required in standard M37A. M37B applies to established pools, spray parks, water parks, and lakefront swimming areas either shared with the public or rented for exclusive use by the council.

Camps that conduct both a swimming and boating program must have an aquatics director with the training specified in M37A.

The following items must be coordinated in advance between facility management providing supervision and day camp management. Camp management is represented by either a camp aquatics director trained as per standard M37A or the camp administrator and camp director or program director. Assistance from the council aquatics committee may be appropriate. In areas from which the public is excluded, Safe Swim Defense policies should be implemented as they would be at a council-staffed facility.

At areas shared with the public, some points of Safe Swim Defense may need accommodation. Note that swim tests are not needed if everyone is limited to shallow-water activities (waist-deep for Cub Scouts).

Review application of Safe Swim Defense, including:

1. Special precautions indicated by medical screening
2. Screening process for swimming ability
3. Designation of depths appropriate for swimmer classifications
4. Check-in and check-out procedures
5. Buddy responsibilities
6. Role of day camp staff in maintaining discipline
7. Role of day camp staff during emergencies

___ M38A. A physician, licensed in the state in which the day camp is located, is responsible for medical care and health supervision of the camp. The name of the physician and the procedure for issuance of medications and standard operating procedures are in writing and comply with state regulations. (Follow *Camp Health and Safety*, No. 19-308.)

___ M38B. The on-site camp health officer is a responsible adult holding current certification or a valid license as required for the position. The on-site camp health officer must also have current certification in CPR by a recognized community agency.

CPR certifying agency

Expiration date

Check one:

- ___ Licensed physician
- ___ Licensed nurse practitioner
- ___ Nurse (RN, LPN, or LVN)
- ___ Licensed physician's assistant
- ___ Paramedic
- ___ Emergency medical technician (EMT)
- ___ First responder/EMR
- ___ The minimum requirement is current certification in the American Red Cross Standard First Aid program, which includes CPR or the National Safety Council First Aid program and CPR Level 1.

There is an established location for contacting the on-site health officer.
