

# CUB SCOUT ADVENTURE ANALYSIS WORKSHEET

**HOW TO USE THIS FORM:** This form is to help identify resources needed to carry out Cub Scout adventures. Use the requirements for the adventure and the Den Leader Guide as references. Review the requirements and the implementation notes in the Den Leader Guide to determine what is needed to carry out the adventure. Use each of the spaces in the worksheet to identify needs to carry out the adventure and the impact on the pack or den. Not all spaces will be filled out. Use your findings to determine what is needed to implement the adventure and the resources needed to carry out the adventure.

**EXAMPLE:** In the Grin and Bear it adventure, boys in the Bear can complete part of their adventure by teaching younger boys in the pack how to play games. In that adventure, boys also create awards to present to the adults that helped carry out the games. That adventure has an impact on the pack meeting, so documenting it with this form will help the pack leadership plan for a successful program.
