Safety Moment

Restart Scouting Checklist

As always, the safety of our Scouts, volunteers, employees and communities is our top priority. This checklist outlines several minimum guiding protocols that adult leaders/volunteers must consider while working with local and state health departments, local councils, chartered organizations and Scouting families on when and how to resume meetings, service projects, camping and all other official Scouting activities.

If it is not practical to meet these minimal protocols, do not restart in-person activities.

Scan Here for Full Resource

S = Supervision

- Understand local and state guidance on preventing COVID-19 exposure.
- Engage your chartered organization and local council on necessary adjustments.
- Conduct the “before you gather” protocols.

A = Assessment

- Identify participants who fall under the CDC’s group of higher-risk individuals. Notify all participants about the risks of participating since COVID-19 exposure cannot be eliminated.
- Verify that the planned activity, gathering or group sizes are not prohibited by local or state orders.

F = Fitness and Skill

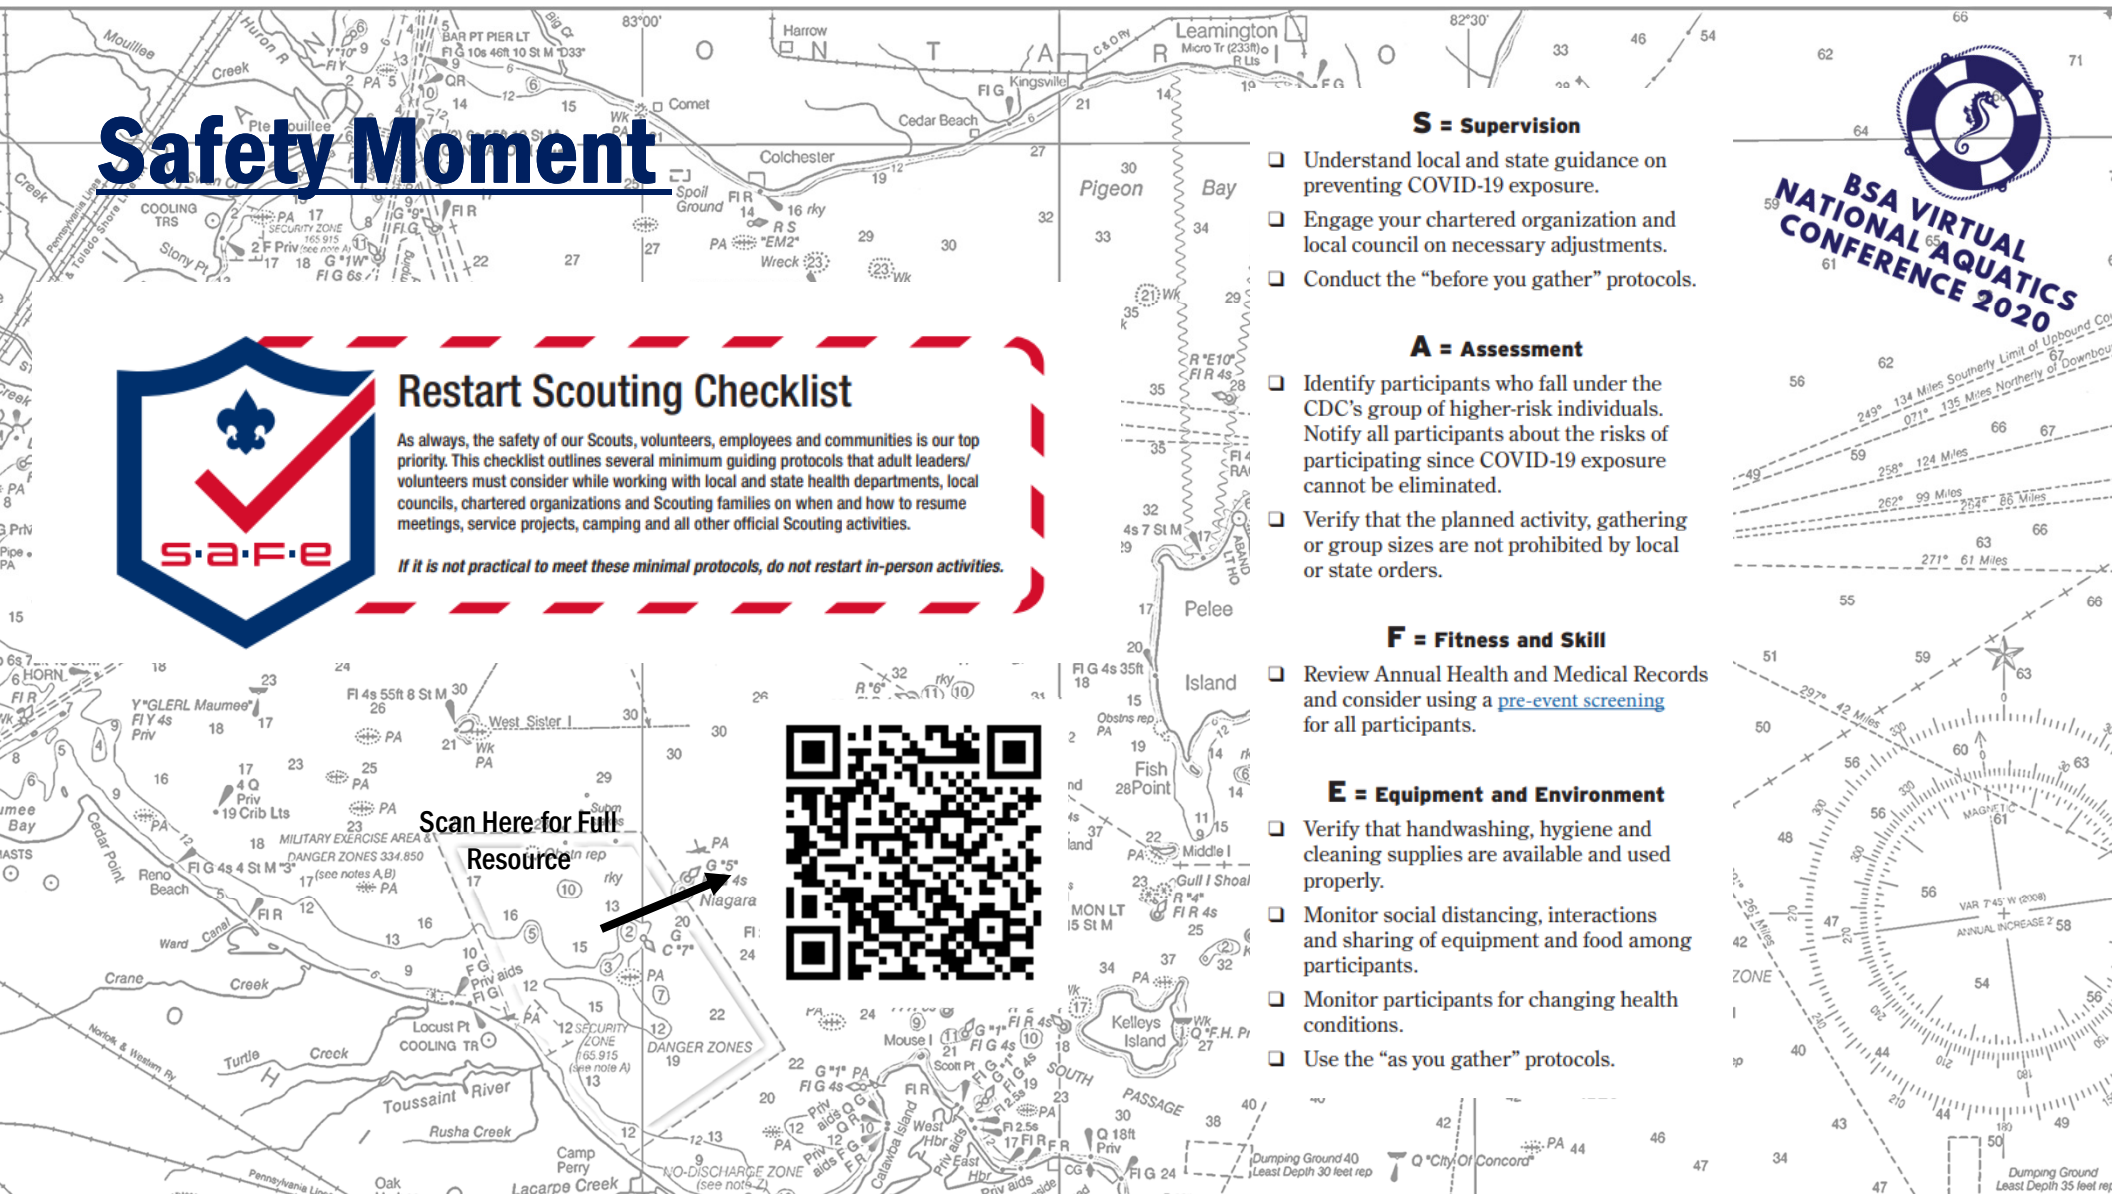

- Review Annual Health and Medical Records and consider using a [pre-event screening](#) for all participants.

E = Equipment and Environment

- Verify that handwashing, hygiene and cleaning supplies are available and used properly.
- Monitor social distancing, interactions and sharing of equipment and food among participants.
- Monitor participants for changing health conditions.
- Use the “as you gather” protocols.
