Cleaning up Batches

- This will be done in the Uncommitted Batch Tab.
- Uncommitted batches accumulate if you have your filters active
- Need to clear your date filters to see if you have hidden batches
- Leave site filter to all sites
- If you find uncommitted batches, edit the batch
 - If batch contains information, confirm if it has or has not been committed in another batch
 - If batch not needed, delete the batch
 - If batch is empty, use or delete the batch.
- Your goal should be to not have open batches.
