

Advanced Planning for 2021 Roundtable Content

As you continue to plan your upcoming roundtables, please know that the national team is working diligently to produce timely, effective content for your districts and councils. Once content is developed, it will be added to the Roundtable Support page. With an eye to the future, please note the current plans for the remainder of 2021:

- ***Safety Moments***
 - January Communicable Disease Prevention
 - February Hypothermia
 - March Guide to Safe Scouting
- ***Cub Scout Breakouts***
 - January Blue and Gold – “Blue and Gold is not what you think it is.”
 - February Advancement – “The science behind Cub Scout Advancement.”
 - March Program Planning – “What makes a great Cub Scout Pack?”
 - April Virtual Den Meetings – “Tips, tricks and resources to help support.”
 - May Summertime Activities – “Fun summer activities to keep families connected to the Pack.”
 - June Technology in Cub Scouting – “ScoutBook and the Den Leader Experience.”
- ***Scouts BSA Breakouts***
 - January Why is Advancement so important?
 - February Guide to Safe Scouting why it is so important

NOTE: Announcement of ***Hot Topics***, by their nature, will have shorter lead times. The goal for that segment of roundtables is to share information that requires immediate action by volunteers.
