Additional Information
Updated: 03/31/2021

Overview

Virtual Impact Sessions are monthly, online national level training events for commissioners. These sessions are focused on a single topic. The size of the group is smaller so that there can be effective large and small group discussions.

The sessions are scheduled for 2 hours that will focus entirely on the specific topic. There will also be an optional 30-minute Q&A session with the National Commissioner Service Chair.
