

Internet Recharter 2.0 Sandbox Access for Commissioners

Commissioners are now able to access a sandbox for them to become more familiar with the new Internet Recharter app. There are seven available sandboxes that can be accessed. As many people will want to explore this new software, the multiple sandboxes will enable adequate bandwidth to accommodate multiple users during the same time.

The multiple sandbox login details are listed below. Please note the following for access and use:

- url: <https://advancementspp.scouting.org/login>
 - **Username:** **Password**
 - Sandbox05 | Scouting123@
 - Sandbox06 | Scouting123@
 - Sandbox09 | Scouting123@
 - Sandbox10 | Scouting123@
 - Sandbox11 | Scouting123@
 - Sandbox14 | Scouting123@
 - Sandbox19 | Scouting123@
- The password is case sensitive, the username is not
- **Do NOT finish and mark “pay at the council”** as it will lock others from being able to use that sandbox
- Be aware that the sandbox is using development software and is still under development – therefore there will be “bugs” and occasional errors appear. This will have no affect with your use of the sandbox.

For additional information, please visit the following url to view the webinar training, FAQs, and the User Guide.

Finally, it is encouraged that each commissioner working with a unit contact and visit with their unit leaders engaged with unit recharter to compare notes, prepare the roster details prior to October 15, and assist each other to ensure a smooth and timely charter renewal.
