

BSA IMMUNIZATION POLICY UPDATE

BSA immunization requirements are an important component of our efforts to ensure the safety of the youth we serve – and our volunteers and professionals. Interest in those requirements is of particular interest in light of COVID and changes have been proposed and continue to be considered.

The best source of information is the BSA's Scouting Safely webpage.

Check it out: [Scouting Safely](#)

Note the following update regarding immunization requirements:

(The following policy is on Pause as of 12/2021 more information on the effective date will be posted when available) The BSA encourages all members of the Scouting community to utilize available vaccines that can provide protection in preventing infectious diseases.

Checking this page regularly will ensure you have the latest information on this topic.
