(CAI Offer- Zebco 33 Reel Replacement Offer 5/22)

Backyard Bass enhances your angler education program and helps Scouts learn to cast plus having fun!

- The Backyard Bass Educator Kit includes 16 fish and 20 casting plugs. *(See details on the web site below)*
- Use the Backyard Bass on well-cut grass, pavement or indoors and cast the plug just beyond the fish.
- Reel in and try to “catch” the fish as the casting plug tucks itself into the mouth of the fish.
- Once mastering the casting technique Scouts can then hit the lake to catch some real fish.

To place your order and receive the BSA discount:

BSA Custom CAI Fly-Tying Kit

This economical Fly-Tying vice kit with the basic tools is designed for instructors teaching the art of fly-tying. A classic vice, which is mounted to a lightweight base in the wooden box, includes five primary tools. An upgraded Scissors, a Midge Bobbin, Threader, Hackle Pliers and a Bodkin are included.

(Pictured but not included is a whip finisher and a dubbing tool)

Thousands of Scouts and Scouters have been taught to tie flies with this box kit.

Order in 5 kit Units

Price Per Box	Unit Price (5 kits)	Priority Mail & Handling	Total Price

Take the guesswork out of fly selection!

The 24 Greatest Flies

You Don't Leave Home Without

In this indispensable guide fisheries scientist and avid fly fisherman Dr. Robert J. Sousa distills from the myriad of flies available to the modern angler today the 24 highest performing flies for any type of fish in any situation.

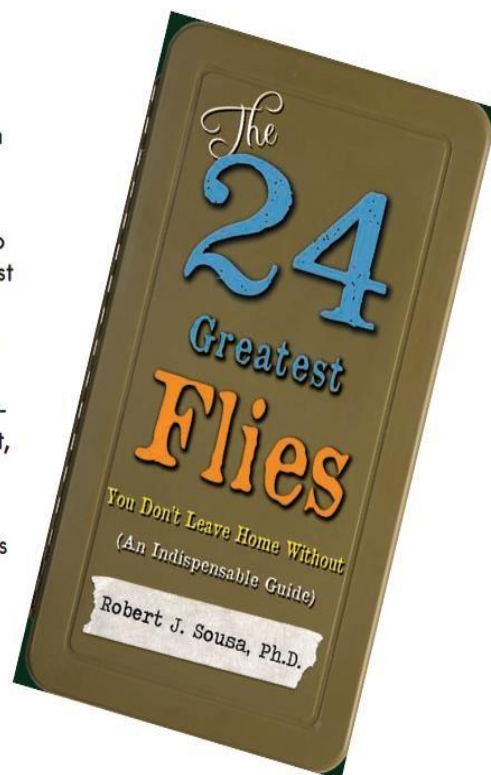

But knowing about **The 24 Greatest Flies You Don't Leave Home With** is only the first part of the puzzle. Learning the most effective way to fish these commonly available flies and understanding why fish can't resist them will unlock fly fishing mysteries for beginners and experts alike.

Few fly anglers understand fish habitat as Sousa, who combines learned time-tested techniques with a deep understanding of fish science. This guide details clear information on where to find fish and provides instruction on how to fish them by making determinations about the environment, the fly and the technique.

Sousa combines his many decades of fly fishing experience with a Ph.D. in fisheries science and reveals in this book his 24 most indispensable flies – the ones he never leaves home without.

You will learn:

- ✓ How to Select the Right Fly
- ✓ The 24 Greatest Flies
- ✓ How to Deliver Your Fly to a Spot
- ✓ Where Are the Fish?
- ✓ Common Fish Behaviors
- ✓ Why a Fish May Take Your Fly
- ✓ Why a Fish Refuses Your Fly
