Dear NCS Participant,

We are excited to welcome you to the John D. Tickle National Training and Leadership Center at The Summit Bechtel Reserve in West Virginia for National Camping School. Our course is scheduled for April 27-May 3, 2024.

You could not have picked a better location to attend your National Camping School (NCS) experience in the heart of the Appalachian Mountains. With the combined force of our distinguished staff and exceptional facilities, we strive to make your stay at SBR a time to remember.

National Camping School and hosts will continue to practice any locally required COVID-19 mitigation strategies. However, these precautions cannot eliminate the potential for exposure while at camp. Information from the Centers for Disease Control and Prevention (CDC) states that older adults and people of any age who have serious underlying medical conditions are at higher risk for severe illness from COVID-19. If you are in this group, please ensure you have approval from your health care provider prior to attending National Camping School. Please find SBR most recent covid updates on our website: www.summitbsa.org/covid-19/

Below we strive to answer any questions you may have before you arrive on site. To learn more about The Summit and all our fun and exciting programs, please be sure to visit our website (www.summitbsa.org). If you have any remaining concerns or questions about our facilities or NCS at the Summit, please contact the SBR Liaison for NCS.

Braxton Rhodes: Braxton.Rhodes@scouting.org.

At the Summit, we aim to meet and exceed your expectations with sights to see, friends to make, things to learn, and adventures all around. We look forward to showing you what we’re all about and welcoming you to The Summit family.

See you soon!

If the severity of the storm warrants, SOC will coordinate movement of all personnel to more secure locations. Transportation services will be utilized in extended periods of severe weather. If an emergency weather alert is announced, please seek appropriate weather shelters.

- Shower houses
- Emergency Procedure Shelters
- Note: Unless directed by staff, the main living area of Luxury Deluxe Tents satisfy weather shelters.
Wildlife Hazards

We respect and reduce the risk of animal encounters by making ourselves and our base less approachable to them. Contact the SOC if wildlife encroaches in your campsites or if they pose a threat to you or others. The following wildlife are dangerous and should **ALWAYS BE AVOIDED**. Reduce the risk of encounters by staying on designated trails and **NEVER** approach. Please pay special attention to learn how to identify them.

**Snakes**: Unless completely known, treat all snakes as venomous. Avoid tall grassy areas and be careful lifting items that have stayed in place for a long time. If bitten, have victim lay prone, cool body, and rest quietly to reduce the spread of venom. Keep the bite area on the same level as the heart. If possible, attempt to identify the type of snake.

**Bears**: Upon encounter, attempt to leave area. Never get in between mothers and cubs. If the bear approaches, make loud noises and group up together waving your arms to scare the bear off. If the bear charges, it may be necessary to fight back to avoid serious injury. Running from a black bear will likely increase its instinct to attack you. All bear sightings that pose a threat are reported immediately to the Summit Operations Center and all personnel removed from the immediate area of the sighting.

**Spiders**: Most spider bites are not felt at the time the bite happens. If suspect a bite, immediately draw a circle around the swollen or red area. Seek medical attention. Try to identify spider. Continue to draw a circle around area every 30 minutes to track progression (if any)

**Rabies Carrying Animals**: Raccoons and other commonly observed small animals are known to carry rabies. Try to flee the area as racbies infected animals will likely not be deterred by fighting back. If bit, reduce heart rate as much as possible, cool yourself to prevent shock, seek medical attention immediately.
